

We bring Business Solutions to Enterprise & Midmarket companies
 ▶ Vertical focus ▶ Lower TCO ▶ Integrated approach

Corporate Overview

Sundaram Infotech, the wholly owned IT Subsidiary of Sundaram Finance Ltd., provides Enterprise Business Applications & Services focused on three business lines:

Microsoft Dynamics, Business Intelligence, Sharepoint & Bespoke Development

As a Microsoft Gold-Certified partner, Sundaram Infotech provides enterprise resource planning solutions to mid-sized companies through Microsoft Dynamics (AX, NAV, CRM, and LS Retail). It complements these services with relevant platform-neutral Business Intelligence and Custom Application (Bespoke) Development. Sundaram Infotech leverages its seasoned functional expertise to develop vertically oriented solutions in Manufacturing, Automotive, Retail & Distribution, Trade & Logistics, New Seed (Agro) and Financial services. Its SharePoint practice brings a combination of Enterprise Portal & Collaboration, Content Management, Business Intelligence, Forms & Processes, Enterprise Search with .NET expertise to enable the creation of accelerated, customized solutions. Its Microsoft certified technical teams deploy integrated and holistic solutions driving lower TCO, time and risk to go-live.

Lending Solutions

Sundaram Infotech also serves financial institutions through its Smartlend line of software products. Sundaram Infotech leverages its parent's 50+ years of experience in the financial services to provide robust software solution for non-banking and banking financial companies to help address their corporate and retail lending activities. Smartlendlite is built on MS Dynamics NAV and Smartlend 3G is platform agnostic and available as an internet ready solution.
